

DISTRICT PLAN TEXT AMENDMENTS

KEY:

1. Text Amendments as Notified by Council and included in Proposed Plan Change 14

Text in **bold red underlined** is that from Schedule 3A of the Resource Management Act and must be included.

For the purposes of this plan change any unchanged text is shown as normal text or in **bold**, any text proposed to be added by the plan change as notified is shown as **bold underlined** and text to be deleted as **bold strikethrough**.

Text in **green** font identifies existing terms defined in *Chapter 2 – Definitions*.

Where the proposed plan change contains a term defined in *Chapter 2 – Definitions*, the term is shown as **bold underlined text in green** and the wording to be deleted is shown as **bold strikethrough in green**. New definitions in Chapter 2 and within a provision (including a rule) is shown as **bold green text underlined in black**.

Text in **blue** font indicates existing links to other provisions in the District Plan and/or external documents. These will have pop-ups and links, respectively, in the on-line Christchurch District Plan. Where the proposed plan change contains a new link, it is shown as **bold underlined text in blue**. Where a link is proposed to be deleted, it is shown as **bold strikethrough in blue**.

2. Text as Recommended in s42A Reports

Text as recommended to be added within s42A reports is shown as **purple bolded and underlined**.

Text as recommended to be deleted within s42A reports is shown as **purple bolded strikethrough**.

3. Text Amendments from Expert Conferencing/Joint Witness Statements

Text in **dark orange** font is recommended additional text from expert conferencing/joint witness statements.

Text in **dark orange strikethrough** is recommended deleted text from expert conferencing/joint witness statements.

4. Additional Text Amendments to s42A Reports in Response to Matters Raised During Hearings

Text in **bold dark orange underlined** indicates text recommended to be added.

Text in **bold dark orange strikethrough** indicates text recommended to be deleted.

Text in **bold orange text underlined in black** indicates text that was proposed to be deleted in the s42A report but is now recommended to be reinstated.

Chapter 3 Strategic Directions

3.1 Introduction

- a. This Chapter:
 - i. Provides the overarching direction for the [District Plan](#), including for developing the other chapters within the Plan, and for its subsequent implementation and interpretation; and
 - ii. Has primacy over the objectives and policies in the other chapters of the Plan, which must be consistent with the objectives in this Chapter.
- b. This Chapter recognises and sets the statutory planning context for the other chapters of the Plan, in order that they:
 - i. Clearly articulate how decisions about resource use and values will be made in order to minimise:
 - A. reliance on resource consent processes; and
 - B. the number, extent, and prescriptiveness of development controls and design standards in the rules, in order to encourage innovation and choice; and
 - C. the requirements for notification and written approval;
 - ii. Set objectives and policies that clearly state the outcomes that are intended for the [Christchurch district](#);
 - iii. Recognise and provide for the relationships of Ngāi Tahu mana whenua and their culture and traditions with their ancestral lands, water, sites, waahi tapu, and other taonga, have particular regard to their role as kaitiaki and take into account the [principles of the Treaty of Waitangi](#);
 - iv. Provide for the effective functioning of the urban environment of the [Christchurch district](#), reflecting the changes resulting from the Canterbury earthquakes, including changes to population, land suitability, infrastructure, and transport;
 - v. Facilitate an increase in the supply of housing, **and provide for a wide range of housing types and locations, to give effect to the provisions enabling development within the [National Policy Statement on Urban Development 2020](#) and the [Resource Management \(Enabling Housing Supply and Other Matters\) Amendment Act 2021](#)**;
including by:
 - A. confirming the immediate residential intensification changes included in the [Land Use Recovery Plan](#); and
 - B. ensuring that the [District Plan](#) has capacity to accommodate a minimum of 55,950 additional dwellings by 2048; and
 - C. addressing further intensification opportunities, in line with the [Land Use Recovery Plan](#) principle of supporting the [Central City](#) and [Key Activity Centres](#); and
 - D. having regard to constraints on environmental and infrastructure capacity, particularly with regard to natural hazards; and
 - E. providing for a wide range of housing types and locations;

- vi. Ensure sufficient and suitable development capacity and land for residential activities, commercial and industrial activities;
 - vii. Provide for a range of temporary and construction activities as permitted activities, recognising the temporary and localised nature of the effects of those activities;
 - viii. Provide, as appropriate, for transitional provisions for the future of temporary activities established under the Canterbury Earthquake (Resource Management Act Permitted Activities) Order 2011 after that order expires;
 - ix. Set a clear direction on the use and development of land for the purpose of avoiding or mitigating natural hazards; and
 - x. Use clear, concise language so that the Plan is easy to understand and use.
- c. The Council must commence a review of the provisions of an operative district plan within 10 years of the provisions having last been reviewed or changed, meaning that this Plan is likely to have a life of not less than 10 years. Whilst certain parts of the district’s built environment will have been re-established and aspects of peoples’ lives will have returned to normal within that timeframe, the district as a whole will still be in a state of recovery. In this Plan, therefore, the term “recovery” is intended to span the entire ten year timeframe, and in so doing facilitate the return to normality as quickly as possible, while also creating a strong platform for the longer term future of the district.
- d. Focussing as it does on Strategic Directions, this Chapter provides a series of high-level objectives for the district, and leaves the articulation of activity-specific and location-specific objectives and policies to the subsequent chapters of the Plan. However, the objectives and policies in the other chapters of the Plan must be consistent with the objectives in this Chapter.
- e. Within this Chapter, Objectives 3.3.1 and 3.3.2 have primacy, meaning that the remaining objectives must be expressed and achieved in a manner consistent with Objectives 3.3.1 and 3.3.2. The other objectives in this Chapter are to be read as a whole and no statutory hierarchy applies.
- f. In all other Chapters of the Plan, the objectives and policies must be expressed and achieved in a manner consistent with the objectives in this Chapter.

3.2 Context

3.2.1 Impact of the Canterbury earthquakes

- a. The earthquakes of 2010 and 2011 devastated Christchurch, resulting in the death of 185 people, many serious injuries and widespread damage to, and destruction of, thousands of homes and businesses, including most of the Central City, and much of the city’s infrastructure.
- b. Christchurch people were significantly affected by the earthquakes. The pattern of damage was uneven, with some areas, such as the Central City and the east, devastated. A substantial number of people have lived, and continue to live, in substandard accommodation for extended periods.

- c. Population levels fluctuated - there was an initial net loss of people from the city, followed by net population growth as the city's rebuild got underway. Households, particularly in the **Central City** and the east, relocated to the north and west of the city and to Waimakariri and Selwyn Districts. Many people had to leave their established communities. In some cases, people had to live further from their jobs or attempt to find new employment. The composition of communities changed. Many households, particularly those with children, moved out of Christchurch. There was also an influx of new people to the city to assist with the rebuild.
- d. More than 7,000 of the most significantly affected residential properties were purchased by the Government and the housing removed. The total number of badly damaged homes in Christchurch was considerably higher, with an estimated 10,000-15,000 houses rendered uninhabitable. Social and affordable housing were disproportionately represented in the housing stock lost. As a consequence, the housing shortfall needs to be replaced as a matter of urgency, in addition to providing for ongoing growth and changes in housing demand.
- e. The earthquakes also had a disastrous impact on commercial and industrial activity, interrupting the operation of many businesses and forcing others to relocate temporarily or permanently, or close. Over 50,000 workers were displaced from the **Central City**. There was a redistribution of business activity, particularly from the eastern and **central city**, to the north and west. Travel patterns for both people and freight changed substantially.
- f. There was considerable damage to public infrastructure, including **roads**, bridges and underground services. Many of the district's **community facilities** were lost or damaged. The district lost many of its heritage features, and considerable damage was caused to natural and cultural values, particularly associated with waterways.

3.2.2 A city in transition

- a. The earthquake rebuild is estimated as a \$40 billion investment in greater Christchurch, on top of business-as-usual development activity. This includes a \$4 billion cost to repair infrastructure, and the repair or replacement of more than 130,000 residential properties.
- b. The effects of the earthquakes will be felt for many years and the shape of urban Christchurch will continue to change during the recovery period, particularly over the next 10 to 15 years. Further movement of people and households is likely as homes are repaired, new development is undertaken, and demographic changes occur as Christchurch evolves. As the rebuild proceeds, many businesses will need to relocate again and many are likely to move into the **Central City** as it recovers as the city's thriving heart.
- c. The tourism sector remains seriously affected. Many businesses and community organisations continue to operate from temporary premises.
- d. The **District Plan** must respond to the evolving needs of the community to enable rebuilding, recovery and future growth. Considering the scale of damage and rebuild, decisions made through the **District Plan** will have a significant, long-term influence on the city, its urban form and how the

city functions. It will also influence how the city addresses the risks from future earthquakes and other natural hazards.

- e. There is an unprecedented opportunity for this [District Plan](#) to expedite the efficient recovery and future for Christchurch as a dynamic and internationally competitive city, which meets the community's immediate and longer-term needs.

3.2.3 Ngāi Tahu mana whenua

- a. Prior to European settlement of Nga Pakihi Whakatekateka o Waitaha (Canterbury Plains) and Te Pataka o Rakaihautu (Banks Peninsula), Ngāi Tahu maintained numerous permanent and temporary settlements among, and gathered resources from, the network of [springs](#), waterways, swamps, coastline, grasslands and lowland podocarp forests in the area. These associations remain important to Ngāi Tahu and are key to its ongoing cultural identity and wellbeing.
- b. Following the signing of the [Treaty of Waitangi](#), the Crown purchased traditional Ngāi Tahu lands through a series of deeds, including [Kemp's Deed](#) under which the largest land sale, the [1848 Canterbury Purchase](#), took place. One of the conditions of sale was that Ngāi Tahu communities would continue to have adequate areas of land to occupy on a permanent and seasonal basis to provide for their present and ongoing needs, including access to the natural resources they had hunted and gathered for generations.
- c. While certain areas were gazetted as Māori reserves, many of the Crown's guarantees were not upheld. As a result, Ngāi Tahu whānui have become alienated from the land that should have been set aside for them to live on. The [Ngāi Tahu Claims Settlement Act 1998](#) records the Crown's apology to Ngāi Tahu and gives effect to the settlement of Ngāi Tahu's claims.
- d. As described in [Chapter 1](#), six papatipu Rūnanga are the organisations which represent mana whenua within Christchurch District - Ngāi Tūāhuriri Rūnanga, Te Hapū o Ngāti Wheke Rūnanga (Rāpaki), Te Rūnanga o Koukourāata, Ōnuku Rūnanga, Wairewa Rūnanga, and Te Taumutu Rūnanga.
- e. Ngāi Tahu mana whenua's role as kaitiaki (guardian) is fundamental to their relationship with the environment. This is readily understood in relation to the protection of natural resources, such as water and biodiversity, and access to and protection of sites and areas of historic and cultural significance. Ngāi Tahu mana whenua's interests in the rebuild and future development of Ōtautahi and its surroundings are much broader. They encompass a significant role and interest in the rebuilding and ongoing development of the city and the ability of Ngāi Tahu mana whenua to provide for their economic and social wellbeing through access to affordable housing, appropriate [education activities](#) and [community facilities](#), and economic opportunities.
- f. Ngāi Tahu mana whenua see an unprecedented opportunity to rediscover and incorporate Ngāi Tahu heritage alongside that of colonial Christchurch in the rebuild and future development of Ōtautahi and its surroundings, as well as to enhance the social, economic, cultural and environmental wellbeing of greater Christchurch.

3.2.4 Longer-term population change

- a. Whilst there is uncertainty about the rate of recovery and growth, on current projections Christchurch will need to accommodate and provide services for a population that is still expected to grow by approximately 130,000 people by 2041. The demographic composition of the district is also projected to change significantly during the next 30 years. Like the rest of New Zealand, the district's population is ageing. The proportion of those aged 65 years and over will increase, nearly doubling in number by 2031.
- b. Population growth, ageing and increasing cultural diversity will result in demands for additional housing (with a range of housing types and locations), commercial facilities and services, and infrastructure (such as transport), as well as changing the demand for community services and their delivery (for example, [recreation activities](#)).
- c. The policy decisions already made and to be made over the next few years by central and local government (including through this [District Plan](#)), together with decisions by all other participants in the recovery, will influence the city's population growth, and its demographic and socio-economic composition.

3.2.5 Supporting recovery and the city's future

- a. It is critical to ensure that the recovery of Christchurch is expedited. The [District Plan](#) plays an important role by providing certainty about where and how development will occur, and making integrated provision for the community's immediate and longer term needs for housing, business, infrastructure and [community facilities](#). It is essential that the [District Plan](#) clearly and actively supports the rebuilding of Christchurch and its social, economic, cultural and environmental recovery, at the same time as providing for the long-term sustainability of the city and the wellbeing of its residents.

3.3 Objectives

Interpretation

- a. For the purposes of preparing, changing, interpreting and implementing this [District Plan](#):
 - i. All other objectives within this Chapter are to be expressed and achieved in a manner consistent with Objectives [3.3.1](#) and [3.3.2](#); and
 - ii. The objectives and policies in all other Chapters of the [District Plan](#) are to be expressed and achieved in a manner consistent with the objectives in this Chapter.

3.3.1A Objective - Enabling recovery and facilitating the future enhancement of the district

- a. The expedited recovery and future enhancement of Christchurch as a dynamic, prosperous and internationally competitive city, in a manner that:

- i. Meets the community's immediate and longer term needs for housing, economic development, **community facilities**, infrastructure, transport, and social and cultural wellbeing; and
- ii. Fosters investment certainty; ~~and~~
- iii. Sustains the important qualities and values of the natural environment;

3.3.1.B MDRS Objective 1 - Well-functioning urban environment

a. A well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future; that
i. Supports reductions in greenhouse gas emissions; and
ii. Is resilient to natural hazards and the current and future effects of climate change.

Commented [SO1]: JWS Strategic Directions Chapter 3, 27 November 2023

3.3.2 Objective - Clarity of language and efficiency

- a. The **District Plan**, through its preparation, change, interpretation and implementation:
 - i. Minimises:
 - A. transaction costs and reliance on resource consent processes; and
 - B. the number, extent, and prescriptiveness of development controls and design standards in the rules, in order to encourage innovation and choice; and
 - C. the requirements for notification and written approval; and
 - ii. Sets objectives and policies that clearly state the outcomes intended; and
 - iii. Uses clear, concise language so that the **District Plan** is easy to understand and use.

3.3.3 Objective - Ngāi Tahu mana whenua

- a. A strong and enduring relationship between the **Council** and Ngāi Tahu mana whenua in the recovery and future development of Ōtautahi (Christchurch City) and the greater Christchurch district, so that:
 - i. Ngāi Tahu mana whenua are able to actively participate in decision-making; and
 - ii. Ngāi Tahu mana whenua's ~~aspirations to actively participate~~ **priorities for their well-being and prosperity are recognised and provided for** in the revitalisation of Ōtautahi, **including through papakāinga/kāinga nohoanga housing within the urban area and on Māori land; and are recognised;** and
 - iii. Ngāi Tahu mana whenua's culture and identity are incorporated into, and reflected in, the recovery and development of Ōtautahi; and
 - iv. Ngāi Tahu mana whenua's historic and contemporary connections, and cultural and spiritual values, associated with the land, water and other taonga of the district are recognised and provided for; and

- v. Ngāi Tahu mana whenua can retain, and where appropriate enhance, access to sites of cultural significance.
- vi. Ngāi Tahu mana whenua are able to exercise kaitiakitanga.

3.3.4 Objective - Housing bottom lines and choice

- a. For the period 2021-2051, at least sufficient development capacity for housing is enabled for the Ōtautahi Christchurch urban environment in accordance with the following housing bottom lines:
 - i. short-medium term: 18,300 dwellings between 2021 and 2031; and
 - ii. long term: 23,000 dwellings between 2031 and 2051; and
 - iii. 30 year total: 41,300 dwellings between 2021 and 2051; and
- b. There is a range of housing opportunities available to meet the diverse and changing population and housing needs of Christchurch residents, including:
 - i. a choice in housing types, densities and locations; and
 - ii. [papakāinga/kāinga nohoanga housing, including within the urban area and on Māori land; and](#) affordable, community and social housing.

Advice Note: The National Policy Statement on Urban Development 2020 (NPS-UD) requires Tier 1 local authorities to set housing bottom lines for the short-medium (next 10 years) and long term (10 to 30 years). The housing bottom lines in Table 1 represent the amount of development capacity that is at least sufficient to meet expected housing demand in Greater Christchurch over the specified period, inclusive of a competitiveness margin. The NPS-UD requires a 20 per cent competitiveness margin for the short to medium term, and a 15 per cent competitiveness margin for the long term.

Commented [SO2]: Table 1 reference refers to a table included in the Gazette Notice for Housing Bottom Lines but has not been required to be replicated in the District Plan.

3.3.5 Objective - Business and economic prosperity

- a. The critical importance of business and economic prosperity to Christchurch's recovery and to community wellbeing and resilience is recognised and a range of opportunities provided for business activities to establish and prosper.

3.3.6 Objective - Natural hazards

- a. New [subdivision](#), use and development (other than new [critical infrastructure](#) or [strategic infrastructure](#) to which paragraph b. applies):
 - i. is to be avoided in areas where the risks from natural hazards to people, property and infrastructure are assessed as being unacceptable; and

- ii. in all other areas, is undertaken in a manner that ensures the risks of natural hazards to people, property and infrastructure are appropriately mitigated.
- b. New **critical infrastructure** or **strategic infrastructure** may be located in areas where the risks of natural hazards to people, property and infrastructure are otherwise assessed as being unacceptable, but only where:
 - i. there is no reasonable alternative; and
 - ii. the **strategic infrastructure** or **critical infrastructure** has been designed to maintain, as far as practicable, its integrity and form during natural hazard events; and
 - iii. the natural hazard risks to people, property and infrastructure are appropriately mitigated.
- c. There is increased public awareness of the range and scale of natural hazard events that can affect **Christchurch District**.
- d. The repair of earthquake damaged land is facilitated as part of the recovery.

3.3.7 Objective – Well-functioning urban environment

- a. A well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future; including by recognising and providing for;
 - Within commercial and residential zones;
 - i. Aa distinctive, legible urban form and strong sense of place, expressed through contrasting building clusters within the cityscape articulated by; and the wider perspective of the Te Poho-o-Tamatea/the Port Hills and Canterbury plains; and
 - Appropriate scale, form and location of buildings when viewed in context of the city's natural environment and significant open spaces, providing for:
 - i. Larger scale development where it can be visually absorbed within the environment; and
 - A. The pre-eminence of the city centre built form, supported by enabling the highest buildings;
 - B. The clustering, scale and massing of development in and around commercial centres, commensurate with the role of the centre and the extent of commercial and community services provided; where
 - C. The largest scale and density of development, outside of the city centre, is provided within and around town centres, and lessening scale for centres lower in the hierarchy; and
 - D. Lower heights and design controls for development located in more sensitive environments;
 - i. Development and change over time, including amenity values, in response to the diverse and changing needs of people, communities and future generations; and
 - ii. The cultural traditions and norms of Ngāi Tahu manawhenua; and
 - iii. The benefits of urban environments that support reductions in greenhouse gas emissions; and are resilient to the current and future effects of climate change.

3.3.78 Objective - Urban growth, form and design

- a. A well-integrated pattern of development and infrastructure, a consolidated urban form, and a high quality urban environment that:
- i. Is attractive to residents, business and visitors; and
 - ii. Provides for development and change over time to address the diverse and changing needs of people and communities, and
 - iii. Supports reductions in greenhouse gas emissions and is resilient to the likely current and future effects of climate change; and
 - iv. Provides for a distinctive, legible urban form and strong sense of place, comprising:
 - A. The pre-eminence of the city centre built form, supported by enabling the highest buildings;
 - B. The clustering, scale and massing of development in and around commercial centres, with an extent, intensity and built form commensurate with the role of the centre and the extent of commercial and community services provided; where
 - C. The largest scale and density of development, outside of the city centre, is provided within and around town centres, and lessening scale for centres lower in the hierarchy; and
 - D. specific design controls and lower heights and design controls for development located in more sensitive environments;
 - v. Recognises that whilst amenity values will change through the planned redevelopment of the existing urban area, the amenity values and the quality of the urban environment will be maintained and enhanced; and
 - vi. Enables Ngāi Tahu mana whenua to express their cultural traditions and norms;
 - vii. Ensures the protection and/or maintenance of specific characteristics of qualifying matters;
 - iv. Has its areas of special character and amenity value identified and their specifically recognised values appropriately managed; and
 - viii. Provides for urban activities only:
 - A. within the existing urban areas unless they are otherwise expressly provided for in the CRPS; and
 - B. on greenfield land on the periphery of Christchurch's urban area identified in accordance with the Greenfield Priority Areas in the [Canterbury Regional Policy Statement Chapter 6, Map A](#); and
 - ix. Increases the housing development opportunities in the urban area to meet the intensification targets specified in the [Canterbury Regional Policy Statement, Chapter 6, Objective 6.2.2 \(1\)](#); particularly:

Commented [S03]: Changes to this objective are addressed in S42A Report Sarah Oliver, section 9.1. Note objective numbering reverts back to operative numbering.

Commented [S04]: JWS Strategic Directions Chapter 3, 23 November 2023

- A. in and around the **Central City, Key Activity Centres** (as identified in the **Canterbury Regional Policy Statement**), **Town Centre, and larger Local neighbourhood centres**, and nodes of **core public transport routes**; and
- B. in those parts of Residential Greenfield Priority Areas identified in **Canterbury Regional Policy Statement Chapter 6, Map A**; and
- C. in suitable **brownfield** areas; and
- x. Maintains and enhances the **Central City, Key Activity Centres and Neighbourhood Centres, Town centres, and Local centres** as community focal points; and
- xi. Identifies opportunities for, and supports, the redevelopment of **brownfield** sites for residential, business or **mixed use** activities; and
- xii. Promotes the re-use and re-development of **buildings** and land; and
- xiii. ~~Has good~~ **improves overall accessibility for all people between housing, jobs, community services, natural spaces, and open spaces including by way of public and active transport; and connectivity (including through opportunities for walking, cycling and public transport) for people between housing, jobs, community services, natural spaces, and open space, transport (including opportunities for walking, cycling and public transport) and services**; and
- xiv. Promotes the safe, efficient and effective provision and use of infrastructure, including the optimisation of the use of existing infrastructure; and
- xv. Co-ordinates the nature, timing and sequencing of new development with the funding, implementation and operation of necessary transport and other infrastructure.

3.3.89 Objective - Revitalising the Central City

- a. The **Central City** is revitalised as the primary community focal point for the people of Christchurch; and
- b. The **amenity values**, function and economic, social and cultural viability of the **Central City** are enhanced through private and public sector investment, and
- c. A range of housing opportunities are enabled to support at least 5,000 additional households in the **Central City** between 2012 and 2028.
- d. The **Central City** has a unique identity and sense of place, incorporating the following elements, which can contribute to a high amenity urban environment for residents, visitors and workers to enjoy:
 - i. a green edge and gateway to the City defined by the Frame and Hagley Park;
 - ii. a variety of public spaces including the Avon river, squares and precincts and civic facilities;

- iii. built form and **historic heritage** that reflects the identity and values of Ngāi Tahu, and the City's history as a European settlement; including cathedrals and associated **buildings** at 100 Cathedral Square and 136 Barbadoes Street;
- iv. a wide diversity and concentration of activities that enhance its role as the primary focus of the City and region; and
- v. a range of options for movement within and to destinations outside the **Central City** that are safe, flexible, and resilient and which supports the increased use of public transport, walking and cycling.

3.3.10 Objective - Natural and cultural environment

- a. A natural and cultural environment where:
 - i. People have access to a high quality network of **public open space** and recreation opportunities, including areas of natural character and natural landscape; and
 - ii. Important natural resources are identified and their specifically recognised values are appropriately managed, including:
 - A. outstanding natural features and landscapes, including the Waimakariri River, Lake Ellesmere/Te Waihora, and parts of the Port Hills/Nga Kohatu Whakarakaraka o Tamatea Pokai Whenua and Banks Peninsula/Te Pātaka o Rakaihautu; and
 - B. the natural character of the coastal environment, **wetlands**, lakes and rivers, **springs/puna**, lagoons/hapua and their margins; and
 - C. indigenous ecosystems, particularly those supporting **significant indigenous vegetation** and significant habitats supporting **indigenous fauna**, and/or supporting Ngāi Tahu mana whenua cultural and spiritual values; and
 - D. the mauri and life-supporting capacity of ecosystems and resources; and
 - E. **Tree canopy cover in areas of residential activity that maintains and enhances the city's biodiversity and amenity, sequesters carbon, reduces stormwater runoff, and mitigates heat island effects; and**
 - iii. Objects, structures, places, water/wai, landscapes and areas that are historically important, or of cultural or spiritual importance to Ngāi Tahu mana whenua, are identified and appropriately managed.

3.3.1011 Objective - Commercial and industrial activities

- a. The recovery and stimulation of commercial and industrial activities in a way that expedites recovery and long-term economic and employment growth through:

- i. Enabling rebuilding of existing business areas, revitalising of centres, and provision in **greenfield** areas; and
 - ii. Ensuring sufficient and suitable land development capacity.
- b. The critical importance of centres for people and the economy is recognised in a framework that primarily directs commercial activity into centres, consistent with their respective roles; and any commercial activities proposing to locate outside these centres will not give rise to significant adverse distributional or urban form effects.

3.3.1142 Objective - Community facilities and education activities

- a. The expedited recovery and establishment of **community facilities** and **education activities** in existing and planned urban areas to meet the needs of the community; and
- b. The co-location and shared use of facilities between different groups is encouraged.

3.3.1243 Objective - Infrastructure

- a. The social, economic, environmental and cultural benefits of infrastructure, including **strategic infrastructure**, are recognised and provided for, and its safe, efficient and effective development, upgrade, maintenance and operation is enabled; and
- b. **Strategic infrastructure**, including its role and function, is protected from incompatible development and activities by avoiding adverse effects from them, including **reverse sensitivity** effects. This includes:
 - i. avoiding noise **sensitive activities** within the Lyttelton Port Influences Overlay area; and
 - ii. managing activities to avoid adverse effects on the **National Grid**, including by identifying a buffer corridor within which **buildings**, excavations **sensitive activities** will generally not be provided for; and
 - iii. avoiding new noise **sensitive activities** within the 50dB Ldn Air Noise Contour and the 50dB Ldn Engine Testing Contour for Christchurch International Airport, except:
 - A. within an existing residentially zoned urban area; or
 - B. within a Residential Greenfield Priority Area identified in the **Canterbury Regional Policy Statement Chapter 6, Map A**; or
 - C. for permitted activities within the **Specific Purpose (Golf Resort) Zone** of the District Plan, or activities authorised by a resource consent granted on or before 6 December 2013; and
 - D. for permitted, controlled, restricted discretionary and discretionary activities within the **Specific Purpose (Tertiary Education) Zone** at the University of Canterbury; and
 - iv. managing the risk of **birdstrike** to aircraft using Christchurch International Airport; and

- v. managing activities to avoid adverse effects on the identified 66kV and 33kV **electricity distribution lines** and the Heathcote to Lyttelton 11kV **electricity distribution line**, including by identifying a buffer corridor within which **buildings**, excavations and **sensitive activities** will generally not be provided for; and
- c. The adverse effects of infrastructure on the surrounding environment are managed, having regard to the economic benefits and technical and operational needs of infrastructure.

3.3.1314 Objective - Emergency services and public safety

- a. Recovery of, and provision for, comprehensive emergency services throughout the city, including for their necessary access to properties and the water required for firefighting.

3.3.1415 Objective - Incompatible activities

- a. The location of activities is controlled, primarily by zoning, to minimise conflicts between incompatible activities; and
- b. Conflicts between incompatible activities are avoided where there may be significant adverse effects on the health, safety and amenity of people and communities.

3.3.1516 Objective - Temporary recovery activities

- a. Temporary construction and related activities (including infrastructure recovery), and temporarily displaced activities, as a consequence of the Canterbury earthquakes are enabled by:
 - i. Permitting a range of temporary construction and related activities and housing, accommodation, business, services and **community facilities**, recognising the temporary and localised nature of such activities, and the need to manage any significant adverse effects; and
 - ii. Providing an additional transitional period for consideration of temporary construction and related activities and temporarily displaced activities, taking into account:
 - A. the need for the activity to remain for a longer period; and
 - B. the effects on the surrounding community and environment; and
 - C. any implications for the recovery of those areas of the district where the activity is anticipated to be located; and
 - iii. Accommodating the adverse effects associated with the recovery of transport and infrastructure networks recognising:
 - A. the temporary and localised nature of the effects of these activities; and
 - B. the long-term benefits to community wellbeing; and
 - C. the need to manage and reduce adverse effects; and

- iv. Recognising the importance of aggregate extraction, associated processing (including concrete manufacturing) and transportation of extracted and processed product to support recovery.

3.3.1617 Objective - A productive and diverse rural environment

- a. A range of opportunities is enabled in the rural environment, primarily for rural productive activities, and also for other activities which use the rural resource efficiently and contribute positively to the economy.
- b. The contribution of rural land to maintaining the values of the natural and cultural environment, including Ngai Tahu values, is recognised.

3.3.1718 Objective - Wai (Water) features and values, and Te Tai o Mahaanui

- a. The critical importance of wai (water) to life in the District, including surface freshwater, groundwater, and Te Tai o Mahaanui (water in the coastal environment) is recognised and provided for by:
 - i. taking an integrated approach to managing land use activities that could adversely affect wāi (water), based on the principle of 'Ki Uta Ki Tai' (from the mountains to the sea);
 - ii. ensuring that the life supporting and intrinsic natural and cultural values and characteristics associated with water bodies and coastal waters, their catchments and the connections between them are maintained, or improved where they have been degraded;
 - iii. ensuring subdivision, land use and development of land is managed to safeguard the District's potable wai (water) supplies, waipuna (springs), and water bodies and coastal waters and their margins; particularly Ōtākaro (Avon River), Ihutai (Avon-Heathcote Estuary), Whakaraupō (Lyttelton Harbour), Whakaroa (Akaroa Harbour) and Te Tai o Mahaanui;
 - iv. ensuring that Ngāi Tahu values and cultural interests in wai (water) as a taonga are recognised and protected.
