

Council's Reply on PC14 – MRZ zone requests – s42A of Ike Kleybos

The following provides an updated account of response to submissions relevant to the s42A of Ike Kleybos for Plan Change 14. Changes to recommended responses to submissions have been formatted in the same manner as Right of Reply provisions, being:

Text in **bold dark orange underlined** indicates responses to submissions that are recommended to be altered from the recommendations to the s42A and text recommended to be deleted in **~~bold dark orange strikethrough~~**.

In an effort to efficiently address the scale submission requests, consistent themes or directly comparable requests have been grouped together and treated as one. Similarly, further submissions on submission requests have not been incorporated, however recommendations reached on primary submissions may be applied accordingly. Council have provided documentation of both original and further submissions and is available via the following link: <https://makeasubmission.ccc.govt.nz/PublicSubmissionSearch.aspx>.

I d[D]o not agree with the MDRS zone replacing the current RS zones and I d[d]on't agree with certain aspects of plan change 14 and reasons and discussion follow. The CCC has excellent plans for the future growth of Christchurch and the mandated MDRS rules are a huge step backwards. Under MDRS intensification can take place much further out from the CBD. It will be totally detrimental to the intensification of the CBD using existing building zone rules.					Reject	Council must apply MDRS to residential zones in accordance with Policy 3 of the NPS-UD. Greater intensification (HRZ) near centres supports a well-functioning urban environment (Policy 1 of the NPS-UD).
