This Appendix table is based the Reply by the Christchurch City Council to matters arising during the hearing of submissions on proposed plan change 14, 17 May 2024 - Attachment 4: Zoning Requests Accept/Reject tables reflecting the Council Reporting Officers' final recommendations: *Table 2 PC14 Reply Zoning Requests Accept and Reject Table – High Density Residential Zone (HRZ) requests*

This table includes the Independent Hearing Panel (the Panel) recommendations on the zoning requests and should be read in conjunction with Part 7 of the IHP Recommendations Report.

Council's Reply on PC14 – HRZ zone requests – s42A of Ike Kleynbos

The following provides an updated account of response to submissions relevant to the s42A of Ike Kleynbos for Plan Change 14 for the High Density Residential Zone (HRZ). Changes to recommended responses to submissions have been formatted in the same manner as Right of Reply provisions, being:

Text in **bold dark orange underlined** indicates responses to submissions that are recommended to be altered from the recommendations to the s42A and text recommended to be deleted in **~~bold dark orange strikethrough~~**.

In an effort to efficiently address the scale submission requests, consistent themes or directly comparable requests have been grouped together and treated as one. Similarly, further submissions on submission requests have not been incorporated, however recommendations reached on primary submissions may be applied accordingly. Council have provided documentation of both original and further submissions and is available via the following link: <https://makeasubmission.ccc.govt.nz/PublicSubmissionSearch.aspx>.
