

IN THE MATTER OF Resource Management Act 1991

AND

IN THE MATTER OF Proposed Plan Change 14 Housing an
Business Choice pursuant to Part 5, subpart
5A and Part 6 of Schedule 1 of the Resource
Management Act 1991

David Michael LAWRY: Reply's to IHP Minute 27: LATE FURTHER SUBMISSION

DAVID MICHAEL LAWRY PC14 SUBMITTER 837 STATES:

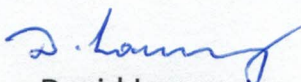

The reason that the late further submission was not filed with the Council by the close of the further submission period on 17 July 2023 is as follows.

For the last two and a half years my wife and I have been the care givers to my wife's mother Margaret Dorman. Margaret has advanced Alzheimer's and is nearing the end of life. She is 98 years old. On the 15th of July 2023 she had a fall that resulted in a major head bleed and needed ambulance assistance resulting in hospitalization for five days. On returning to our care significant additional assistance was needed for her to achieve the best recovery that she could.

I submit that the urgent need to help not only Margaret, but also my wife because of this injury resulted in the missing of the 17 July 2023 submission cut off.

I submit that CCC at CEO level and CIAL have been aware of this "further submission" since the 5th of September 2023 and neither have raised any concerns relating to prejudice.

I respectfully request that the late submission be accepted.

David Lawry
