Dear Director IHP

I am a submitter on Plan Change 14. I write regarding the CCC's Memorandum of Counsel dated 12 June 2023. Broadly, I support the extension of timeframes but do not believe such extensions should be inequitable. That is to say, any extension afforded the CCC should be matched by extensions afforded to submitters. This would have the effect of changing the CCC's proposed date of filing and service of submitter expert evidence-in-chief of 15 Sept 2023 to a new date 22 Sept 2023, and subsequent flow on effects for the remainder of the timetable.

I trust that the IHP will seek to be equitable in providing for all affected parties in its deliberations and decisions. I look forward to appearing before the IHP in person.

Regards

Andrew McCarthy
